

ELECTRIC FIREPLACES

 Monessen

WARM WELCOME

Nothing invites or delights like the dancing flames of a fire. For thousands of years fire has been the focal point of hearth and home and, like so many families before, we invite you to sit by ours and enjoy their warmth and beauty.

33" Electric Fireplace

ALLURA-FIRE ELECTRIC FIREPLACES

With richly colored flames dancing among the true-to-life logs, you'll forget you're actually watching the magic of Monessen's electric fireplace technology rather than a real gas or wood fire.

The Allura-Fire series of electric fireplaces from Monessen offers you the ability to add a fireplace to any room in your home. With no need for venting and multiple sizes, there's an Allura-Fire that's the perfect fit for you.

Allura-Fire electric fireplaces are available in 26, 33 and 36 inch sizes and come with a convenient remote control that offers you the ability to control the flame height, fan, ember bed intensity, ambient overhead light feature and on/off function.

The 26 and 33 inch sizes provide a maximum of 5,000 BTUs and are available with a 3-prong plug and cord. With 10,000 maximum BTUs, the 36 inch model comes hard-wire ready for installation.

With Sandstone refractory on the sides of the firebox, the realistic log texture and color, and beautifully decorative arched face, the Allura-Fire from Monessen is the perfect fire for every home.

Use the hand held remote control to turn off the ambient lighting and flames to make your Monessen Allura-Fire electric fireplace the perfect heater for your bedroom!

36" Electric Fireplace

Electric Fireplaces
